

FAC Metabase Dashboards User Guide

This guide explains how to use the [Federal Audit Clearinghouse \(FAC\) Metabase dashboards](#). These dashboards allow users to explore audit submissions, federal award expenditures, audit findings, and more. Most dashboards include filters, tables, and/or visualizations to help you analyze audit data and export results for further use.

Different types of search filters require different input mechanisms. Depending on whether the filter style is a dropdown, input, or search, you may have to hit the “apply” button on the far right, the “apply filter” button at the bottom right of the selection box, or the enter/return key after filling in your search criteria. When filtering by state, capitalize the two letters. You can click on column titles to sort, or you can move column widths to re-size.

The FAC’s Metabase offerings are organized as follows:

FAC Data Explorer

- Browse General Tab - Enables filtering and exploration of audit submissions by key attributes such as year, entity type, state, and oversight. Additional detail opens up in a card view.
- Browse Findings Tab - Enables filtering and analysis of audit findings by type, severity, and repeat occurrence. Additional detail opens up in a card view.

Other FAC Dashboards

- Yearly Trends – Displays audit activity and trends over time.
- State Graphs – Shows how federal funds are distributed geographically by state.
- Oversight Summaries – Summarizes activity by oversight agency.
- ALN Search – Allows program-level searches using Assistance Listing Numbers (ALNs) and includes auditor contact information.
- Findings – Displays detailed audit findings.

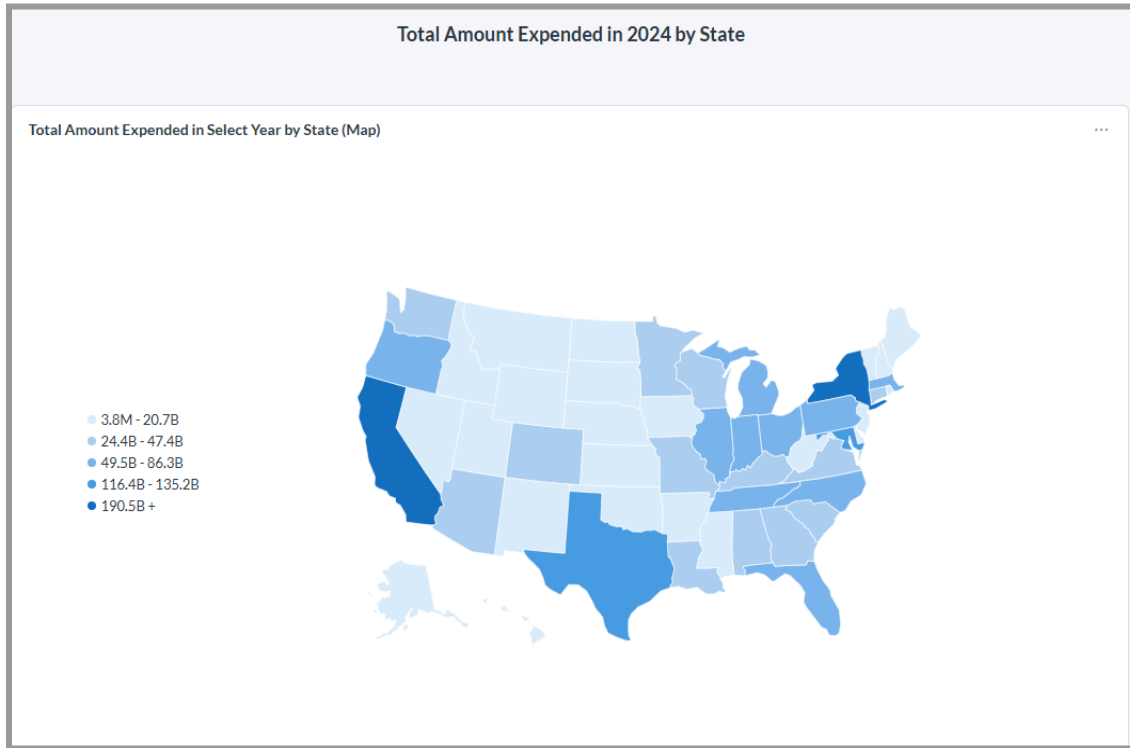

Dashboard Descriptions

Yearly Trends

The Yearly Trends dashboard offers various graphs to plot yearly data and trends: total submission, total dollars in federal awards, and findings count (including a count of audits each year that reported zero findings).

State Graphs

The State Graphs dashboard displays a map showing the total amount of federal awards expended by states for the selected audit year. Darker colors represent higher total award amounts. Use the 'Audit Year' filter at the top of the dashboard to change the year. Click 'Apply' to refresh the data.

This view helps identify geographic trends and compare funding levels between states.

Oversight Summaries

The Oversight Summaries dashboard provides a summary of audit submissions and award volume for selected oversight agencies. Use the filters at the top to select one or more agencies and audit years.

FAC Dashboards - Oversight Summaries						
T Oversight Agency: 2 selections X		T Audit Year: 2024 X				
ALN Prefix / Agency		Oversight Agency Yearly Summary				
Code	Agency	audit_year	oversight_agency	total_submissions	total_award_volume	total_findings
01	U.S. African Development Foundation (USADF)	2024	10	2,838	\$17,238,267,324	1,778
04	Inter-American Foundation	2024	66	699	\$4,416,762,337	268
07	Office of National Drug Control Policy					
08	Peace Corps					
09	Legal Services Corporation					
10	U.S. Department of Agriculture (USDA)					
11	U.S. Department of Commerce (DOC)					
12	U.S. Department of Defense (DOD)					
13	Central Intelligence Agency					
14	U.S. Department of Housing and Urban Development (HUD)					
15	U.S. Department of the Interior (DOI)					
16	U.S. Department of Justice (DOJ)					
17	U.S. Department of Labor (DOL)					
18	Federal Reserve System					
19	U.S. Department of State (DOS)					
20	U.S. Department of Transportation (DOT)					

This dashboard includes:

- A list of oversight agencies and their codes.
- Summary statistics including total submissions, award volume, and findings.
- A comparison view when multiple agencies are selected.
- A key on the left-hand side showing agency codes with their corresponding names.

ALN Search

The ALN Search dashboard allows users to search for audit submissions by Assistance Listing Number (ALN). Enter an ALN prefix and extension to view program-specific audit data.

This dashboard provides detailed information including:

- Federal program name
- Audit year
- Auditor contact information
- Auditee information
- Audit firm details

Findings

The Findings dashboard displays audit findings categorized by type, such as material weaknesses, significant deficiencies, and questioned costs. Use the filters to refine your results.

This view allows users to:

- Identify trends in audit findings
- Review detailed finding descriptions
- Filter findings by year and category
- Export data for reporting and analysis

Exporting Data

To export data from any dashboard:

1. Hover over a table or visualization.
2. Click the three dots (⋮) in the top-right corner.
3. Select 'Download results.'
4. Choose your preferred file format (CSV, Excel, etc.). Choosing “.png” format (only available for graphs/charts) will download the graphic itself, not the table data.

User Queries

How can I track repeat findings?

Use the **Browse Findings** tab on the Data Explorer and apply the *Repeat Finding = Yes* filter. You can further refine results by audit year, material weakness, or questioned costs to identify patterns across entities or time.

How can I see findings tied to questioned costs?

Use the **Browse Findings** tab on the Data Explorer and set *Questioned Costs = Yes*. This allows you to isolate findings that include financial impacts and review them in detail.

How can I analyze audit activity for a specific state?

Use **Browse General** on the Data Explorer. Apply the *State* filter to narrow results and compare funding levels or submission counts within that state. Additionally, you can use the **State Graphs** dashboards.

How can I research a specific entity or UEI?

Use the **Browse General** tab on the Data Explorer and enter the *UEI* or entity name. This will return all associated audit submissions and related details.

How can I explore trends over time?

Use the **Yearly Trends** dashboard. Adjust the audit year filter to compare submission counts, award volume, and findings across years.

How can I review findings by category (e.g., material weaknesses)?

Use the **Browse Findings** tab on the Data Explorer and apply filters such as *Material Weakness = Yes* or *Significant Deficiency = Yes* to focus on specific finding types. Additionally, you can use the **Findings** dashboard.

How can I analyze a specific federal program (ALN)?

Use the **ALN Search** dashboard and enter the ALN prefix and extension to view program-level audit data, including submissions and findings.
